

Aller-Ternatives

Yes, you *can* eat that!

What is it:

An app that finds and filters out products that contain specific allergens.

Where does it live:

On your phone, tablet, or desktop device.

Who is it For:

People with allergies who want to find alternatives to common foods

Description of the main activity:

Enter your allergies or food sensitivities, Search for a type of food item, view a list of places within your desired radius that have an alternative or similar item that does not contain that item.

Example:

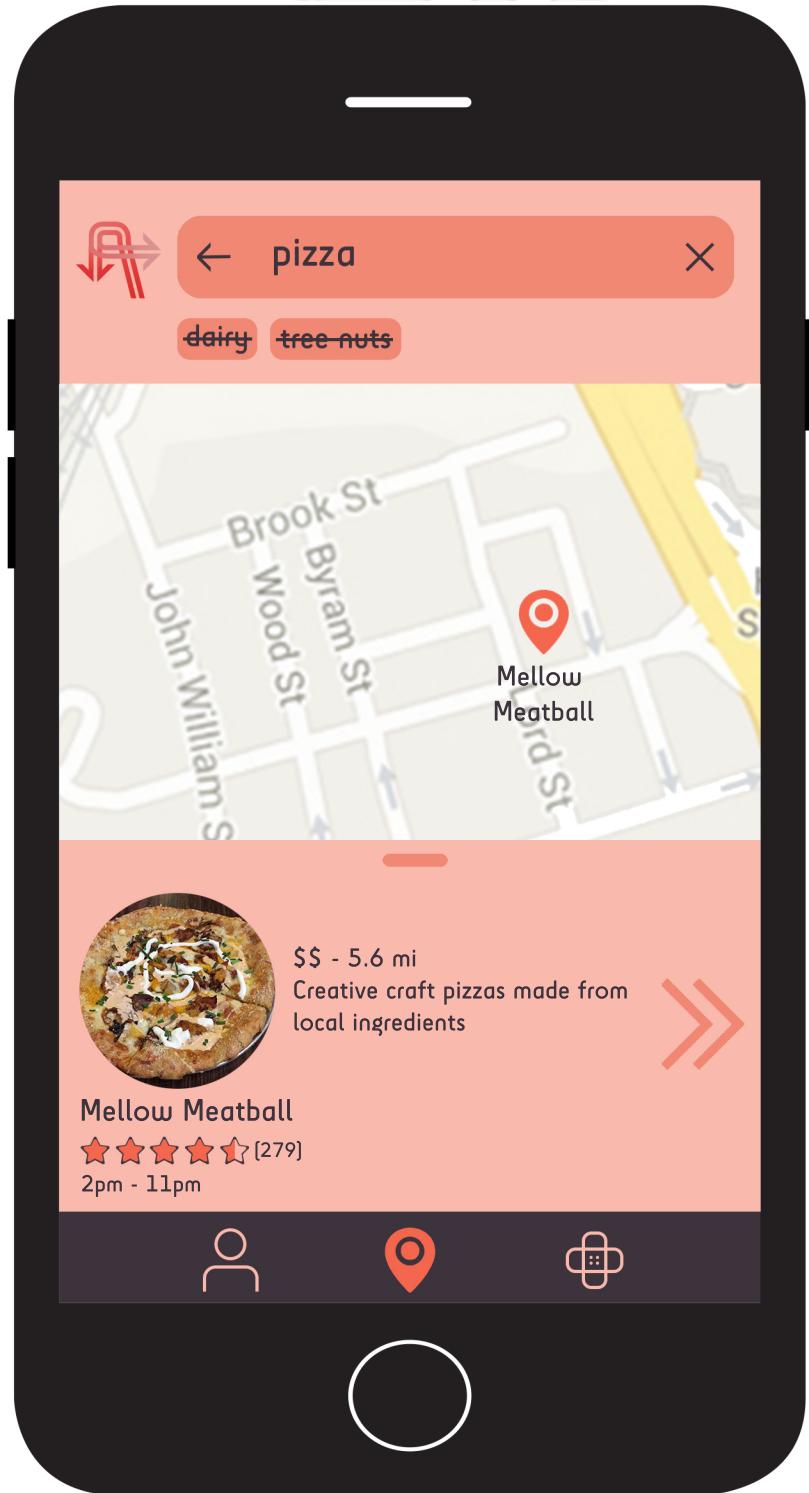

if you are allergic to all dairy and are looking for pizza the app might list places that have vegan pizza near you.
